

INSPIRED BY TORRY'S HERITAGE AND CULTURE, EXPLORE THE STREETS OF TORRY AND DISCOVER NEW ART ON THE STREETS

Tracing Torry tells a powerful visual story, celebrating Torry as a creative, diverse, and welcoming community.

The people of Torry have played a central role in inspiring and shaping these murals, ensuring the artwork truly reflects the spirit of the area. We held a series of community workshops across Torry, engaging a broad demographic that represents the richness and diversity of the local population.

We conducted workshops with groups including Denis Law Legacy Trust, Touch of Love, Torry Heritage Group and Brimmond Court residents. Participants shared stories and memories of growing up in Torry, spoke about jobs and past times, contributed their own drawings and art, and gave us photographs from their own collections. This has formed the backbone of the project. The artists were able to use these sessions and resources to inspire their designs and create new work that celebrates Torry.

Find a map with the locations of the street art inside and enjoy Tracing Torry!
